## SAFETY AND TRAINING

TRUST YOUR TRAINING TO THE  
TEAM THAT BUILT THE EQUIPMENT

### MEETING ALL YOUR SAFETY NEEDS

Sentry training courses offer a comprehensive combination of online and instructor-led training.

Training courses include:

- Insulating Aerial Device
- Digger Derrick
- Non-Insulating Aerial Device
- Tree Care Aerial Device
- Crane
- Chipper
- Bucket Rescue

Sentry also offers National Commission for the Certification of Crane Operators (NCCCO) and Crane Institute Certification (CIC) preparatory courses and practical examinations for:

- Cranes
- Digger Derricks

### DEDICATION TO SAFETY

Altec's commitment extends beyond the investments we make in designing and manufacturing equipment. Keeping crews safe on the job is why we provide the Altec Sentry Program—a unique array of training options designed to help employers qualify their operators to safely operate Altec equipment.

### COMPREHENSIVE TRAINING FORMATS

Training courses include self-directed training through the Sentry Online learning system as well as instructor-led training from the people who know Altec equipment best. Online operator training courses meet OSHA, ANSI and ASME classroom requirements for General Training and/or Familiarization and are easily accessible through [altec.com/safety](http://altec.com/safety). Our instructor-led courses include personalized hands-on training with each student and fulfill the classroom and hands-on requirements for OSHA, ANSI and ASME for operator training.

### TRAINING

After completing training, students will receive a certificate of completion, and Altec will keep the record of training in our database for reference.
